Dance in education does not exist just for the pleasure of dancing, but through creative effort in giving aesthetic forms to significant experience it is hoped students will develop their creative power and in turn improve themselves as persons. - Margaret H'Doubler

M.F.A. in Modern Dance

Program Purpose

The Graduate Program (Master of Fine Arts) in the Department of Modern Dance cultivates multiple ways of investigating, articulating and understanding the body/mind through theory and practice. The MFA program integrates the rigors of technical discipline, creative investigation and intellectual exploration to prepare dancers for the opportunities and challenges of the profession. The curriculum promotes in-depth inquiry into dance as a physical, aesthetic, intellectual and cultural practice. Additionally, the department is committed to preparing future generations of leaders in the art form, teaching in higher education, administration, and community service.

Central to the Department of Modern Dance is the idea that dance is a way of knowing -- of knowing one’s self, one’s community and one’s place in the world. As such, the department cultivates dance-centric ways of knowing through the MFA degree. The curriculum consists of highly focused experiential and dialogic education to create an environment that encourages questioning, artistic risk-taking, critical thinking and communication. The Department is a transformative educational community that embraces ambiguity, welcomes creative conflict, practices integrity, sees diversity as essential and empowers through knowledge and experience. The Department of Modern Dance engages students in performance, improvisation, choreography, philosophy, pedagogy, research, dance technology, screendance and other academic and theoretical pursuits.

The MFA in Modern Dance is a 61-credit terminal degree requiring 6 semesters of on-site participation. The MFA degree is intended to provide the breadth and depth of knowledge necessary to prepare graduates for professional careers in dance, including college and university teaching. The MFA degree requires an individualized thesis project and self-designed curricular plan after one’s first year. Through the thesis research process, the MFA program guides candidates to develop expertise in areas of specialization and personal interest. The thesis topic is designed and implemented by each MFA student, focusing on a primary theme possibly involving elements from a broad range of research interests. Students are expected to investigate new areas of interest, challenge existing ideas, expand upon the familiar, and design projects that integrate areas of strength with new areas of learning. Graduate students are required to actively participate in the design of their programs, creative works and theses.

Personalized mentorship within the context of advanced training is one of the hallmarks of the program. Faculty mentor candidates in-order to prepare them for success in the professional field and uphold the reputation and standards of the Department of Modern Dance. The MFA is a rigorous course of study designed for those with serious, focused,
professional aspirations as well as current knowledge of the contemporary dance field. The graduate program is nationally recognized as a professional training program offering a sophisticated and diverse curriculum for developing artists, scholars and teachers.

Assessment: The Department has a grading policy that requires all graduate students to meet a minimum standard of competency in all of their Departmental courses. If a student performs below departmental expectations she/he will receive a substandard grade in that course. Graduate students are placed on probation if their GPA falls below a 3.0 or if they receive a grade below a B-. Students are expected to maintain these standards for the entire time they are in the department. Students are given ample opportunity to meet with their instructors and the Director of Graduate studies concerning their progress and potential in each of their courses and the program. In terms of University Graduate School grading standards, MFA students must maintain a 3.0 cumulative GPA or they are subject to dismissal from the program and the university. MFA students are expected to exhibit high levels of critical thinking, written and verbal communication, teachability, technical progress, collegiality, curiosity and creativity.

Learning Outcomes

• Understand and embody advanced and diverse technical, choreographic and teaching skills.
• Identify, analyze, and assess dance with sophistication from aesthetic, theoretical, historical, and cultural perspectives.
• Develop a personal aesthetic.
• Articulate a personal philosophy in written and verbal discourse, contextualizing one’s point of view with regard to dance and the arts in society.
• Be well prepared for diverse positions in the public, private, or nonprofit sectors.
• Possess a global perspective of the history and currency of the contemporary dance field.
• Develop working artistic communities through collaboration and interdisciplinary activities.

MFA Mission Statement

The Graduate Program in the Department of Modern Dance cultivates multiple ways of investigating, articulating and understanding the body/mind through theory and practice. The curriculum promotes rigorous, in-depth inquiry into dance as a physical, aesthetic, intellectual and cultural practice.
MFA Graduate Program Schematic
Department Of Modern Dance Faculty And Staff

Chairperson: Stephen Koester
Faculty Advisors: Pamela Geber (Director of Undergraduate Studies, Freshmen)
Satu Hummasti (Soph./ Jun./Transf./Minors)
Sharee Lane (Seniors)
Eric Handman (Director of Graduate Studies)

Student Request Committee Chair: Rob Wood
Scholarship Committee Chair: Juan Carlos Claudio
Teacher Certification Advisor: Pamela Geber
Production Director: Cole Adams
Costume Director: Steve Rasmussen
Office Support Coordinator: Glenda Staples
Office Assistant: Sara Whitney Francis
Head Musician: Wayne Coons
A/V Engineer: Benjamin Sandberg

Faculty:
Cole Adams (production, lighting)
Ellen Bromberg (theory, composition, media)
Juan Carlos Claudio (technique, composition, culture and community)
Pamela Geber (technique, composition, kinesiology, pedagogy)
Eric Handman (research, theory, technique, improvisation, composition)
Satu Hummasti (history, cultural contexts, technique, composition)
Stephen Koester (technique, improvisation, composition)
Sharee Lane (ballet)
Steve Rasmussen (costuming)
Brent Schneider (technique, technology, comp./improve)
Michael Wall (music, composition)
Donna White (Associate Dean – Graduate School)
Rob Wood (ballet accompanist, music theory)

Auxiliary Faculty:
Daniel Charon (guest choreography)
Ed Groff (Laban Movement Analysis)
Peggy Hackney (Laban Movement Analysis)
Janice Meaden  Laban Movement Analysis
Linda C. Smith  repertory, dance history
Tom Welsh  research, kinesiology

Professors Emeriti:
Loa Clawson
Jackie Clifford
Abby Fiat
Sally Fitt
Phyllis Haskell
Anne Riordan
Shirley Ririe
Joan Woodbury
Graduate Curriculum

A core curriculum is required of all MFA students. The curriculum is designed to provide both breadth and depth in the field of modern dance, cultivating sophistication in artistry and education.

A minimum of 50 credits must be accrued through the departmental curriculum. The remaining eleven credits may be earned through any 5000 or 6000-level university course or independent study of professional relevance. The graduate curriculum is modular in design, allowing second- and third-year graduate students greater freedom to personalize their classes to suit their research interests. First and Second-year graduate students must present a curricular plan to the graduate advisor for the following year prior to the end of the current academic year. Second-year graduate students will be assigned pre-thesis mentors consisting of two faculty members who are available to discuss any alternatives to the curriculum the candidate wishes to investigate that may be relevant to their evolving research interests. Exceptions from the department curriculum must be done in consultation with one’s curricular committee and the graduate advisor.

If a candidate is seen to lack necessary writing skills based upon their coursework first semester, a writing course may be required. International students should expect to add an English speaking and/or writing course in their first semester. This is to be determined in conversation with the graduate advisor.

Deficiencies in any other curricular areas that the faculty identifies as needing to be addressed as per expectations of an MFA degree may result in the candidate being required to take additional course work as specified by the faculty.

Graduate Curriculum Modules

Required courses in **bold**

**Year One**

All Year One curriculum listed below is required unless waived by faculty. Meet with Director of Graduate Studies to discuss any first year curricular changes.

**Year One Fall:**

* Classes meet on alternate years

**Years Two and Three**
A candidate is required to accumulate credits in each of the below modules and must work with the Director of Graduate Studies to develop a curricular plan. Course listings in **Bold** are required courses.

**Physical Practice** (6 credits accumulated over the course of years 2 and 3 – *only 6 will be counted towards the 61 credits needed to graduate*)

<td>1-3</td>
</tr>
<tr>
<td>D6380</td>
<td>Problems in Historical Research</td>
<td>1-5</td>
</tr>
</tbody>
</table>

**Theory credits may also be accumulated through graduate-level independent studies in research-related theoretical coursework in other departments.**
**Pedagogical Practice** (min. of 3 credits accumulated over years 2 and 3)

- **D6340** Dance & Community
- **D6520** Advanced Principles of Teaching
  
  *Required for lead teachers and Graduate Assistants*

- /****D6951 Independent Study (self-designed)

*Graduate credits may also be accumulated through independent studies in:

- **D6630** Teaching Kinesiology
- **D6570** Practicum in Dance Education

**Additionally, candidates may accrue graduate credits through an independent study with a faculty member, engaging them in dialogue and writing about a course and content of interest. Content of this independent study is to be determined between the candidate and the particular faculty member.**

**Other Departmental Electives**

**Modern Dance Electives:** If undergraduate course work does not include Dance History, Movement in Culture or Kinesiology, these courses will be required for the MFA degree and counted as elective hours. If a candidate is seen to lack necessary writing skills based upon their course work first semester, a writing course will also be required. Deficiencies in any other curricular areas that the faculty identifies as needing to be addressed as per expectations of an MFA degree, may result in the candidate being required to take additional course work as specified by the faculty. Candidates are encouraged to take electives both within and outside of the Department that relate to their main interest areas. Departmental electives include:

- **D6740** Graduate Lighting
- **D6710** Grad Apparatus Conditioning
- **D6730** Grad Dance Performance (PDC)
- **D6610** Graduate Kinesiology I
- **D6620** Graduate Kinesiology II
- **D6350** Graduate Movement in Culture
- **D6360** Graduate Dance History
- **D6520** Advanced Principles of Teaching
- **D6961** Integrated Arts (summer honors program)
- **D6630** Research Teaching Kinesiology
- **D6961** Special Topics in Modern Dance

Graduates may also take any undergraduate dance course offerings of interest. To receive graduate credit for these classes, the candidate should take the class as a graduate independent study D6951. The candidate should first inform the graduate advisor of their intent to take an undergraduate course for credit.
Independent Study
All independent studies must be approved prior to the first week of the semester in which study is anticipated by both the graduate advisor and the teacher of the independent study. Of the total 61 credits a candidate must accrue to earn an MFA, only 8 may be from independent studies. Exceptions will be considered given proper justification. Only one independent study with department faculty is allowed per semester.

The following is a model of the MFA program comprised entirely of departmental courses.

**Year One Autumn:**

</tr>
</tbody>
</table>

**Please note:**
Only 12 accumulative credits of Modern Dance Technique may be applied to the required 61 credits needed for program completion.

In their third year, candidates must enroll for a *minimum* of 6 Thesis Research – Masters credits. How they distribute those credits across their last two semesters is up to the candidate’s discretion. If needed, one can accrue up to 12 Thesis Research – Masters credits that can be applied to the required 61 credits needed for program completion. A candidate must register for a minimum of 1 Thesis Research – Masters credit in the semester of their orals.

Graduate requirements may be waived or reconfigured for students who present solid rationale for their requests. Rationale is usually based on proficiency in a given area of the curriculum and/or the specific interests in a student’s research and thesis focus.

Graduate students may enroll for a maximum of 16 credit hours/semester. Those with Teaching Assistantships must enroll for a minimum of 9 credit hours/semester.

All Graduate Teaching Assistants who serve as the primary teacher of a course must register for 1 credit of Advanced Principles of Teaching (D6855) for the first two semesters in which they teach. TAs will not need to register for this course more than twice, regardless if they teach in more than two semesters. First-year graduate students assisting an upperclassman’s teaching responsibility are also required to take Advanced Principles of Teaching.

The Department of Modern Dance requires all graduate students to have an Apple laptop. The University Bookstore offers an academic discount to all matriculated students.
Graduate Advising, Evaluation and Retention

Advising

Year 1

First-year graduate students will be assigned a faculty mentor and a peer mentor. The faculty mentor serves as a guide, facilitator and resource for a student’s progress prior to the selection of a thesis committee.

At the beginning of your first Fall semester, meet with the Director of Graduate Studies to:

- Identify proficiencies and deficiencies from transcripts: life/professional experience will be evaluated and documented in your student file
- Discuss curricular path and areas of interest
- Complete/finalize registration for Fall semester

Meet with your faculty and peer mentors throughout the first year when needed and as questions arise. At mid-Fall and end of Spring semester (year 1), each graduate student will meet with the Director of Graduate Studies for a formal evaluative session.

Year 2

At the start of the second year, MFA candidates will request two faculty mentors to serve as pre-thesis advisors. These advisors will assist the candidate in their creative research throughout the year and their thesis proposal at the end of the Spring semester. After the thesis proposal, both the candidate and the pre-thesis committee must assess the options of moving forward. These options are: 1) the pre-thesis committee remains intact, thereby comprising two out of the three members required for a full thesis committee; 2) retaining only one of the two original pre-thesis committee members; or 3) forming a thesis committee with three entirely new personnel. Candidates should be aware that faculty members are limited to serving on only two thesis committees per MFA class.

If there are concerns regarding a student’s progress, that student will be advised of these concerns throughout the year in order to maximize a student’s success in completing the Graduate Program. These concerns may be addressed by the teachers in each of your courses, in the formal evaluation meetings, and/or by your graduate advisor. Students are strongly encouraged to seek out other faculty for advice, particularly for classes that a faculty member teaches and/or if that faculty member’s expertise relates directly to one’s area of interest or focus.

There will be periodic meetings for all graduate students. These meetings allow needed information and announcements to be conveyed to all graduates, and for discussion as a group of any concerns, questions or issues that may arise throughout the year.
**Evaluation**

The evaluation process consists primarily of semester-by-semester advising, grading in all course work, faculty reviews, and supervision of thesis-related work. Your academic and studio work and over-all progress will be evaluated in the following ways:

- Observation by faculty in all course work
- Feedback from instructors in all course work
- Informal one-on-one feedback on project(s) work
- Graduate Advisor conferences in the first year
- Faculty review of thesis proposals in Thesis Research Studio
- Thesis committee involvement in thesis-related work

While graduate students receive feedback and guidance throughout their studies they are also expected to be self-motivated, directed and responsible for seeking faculty contact as well. Grades serve to provide an immediate and relative assessment of competency, reflecting one’s general progress and standing in the Department.

There are several evaluative moments during your studies:

- Mid- and end-of-first-year conferences with the Director of Graduate Studies.

Thesis proposals are formally presented to the full faculty for discussion and feedback at the conclusion of Thesis Research Studio – fourth semester. Each student will receive written and/or verbal comment on his or her proposal presentation. Students may be asked to re-work and refine the proposal as per faculty suggestion, or asked to significantly re-think their proposal if the proposal and the work that supports it are not acceptable. To assist in the development and preparation of this proposal, each student will be assigned a pre-thesis faculty mentor in addition to the teacher(s) in Thesis Research Studio. This mentor need not necessarily serve on one’s final thesis committee. Once a thesis proposal is approved and a thesis committee selected, the evaluation process significantly shifts to one’s thesis committee.

**Retention**

At the end of both Fall and Spring semesters of every year, a student evaluation/review will result in one of the following actions:

- Positive Faculty Review, allowing one to progress on with their graduate studies.
- Counseled Out. If a student’s ongoing work in any area of the curriculum is unacceptable, they will be graded accordingly and placed on probation or be advised out of the program as per the decision of the full faculty.
Students must maintain all of the following standards to stay in the Graduate Program:

- Candidates for a Master’s of Fine Arts Degree are required to maintain a 3.0 or higher GPA (B average or higher). Failure to maintain a 3.0 GPA places that student on probation and will trigger an immediate and mandatory full faculty review of that student. This review may result in the removal of that student from the Graduate Program. Once placed on probation, failure to raise one’s GPA or satisfy other retention requirements in subsequent semesters will result in that student being removed from the Graduate Program.

- A grade below B- for any course work taken within the Department will place that student on probation and trigger an immediate and mandatory full faculty review of that student who will be required to justify their continuance within the program. This review may result in the removal of that student from the Graduate Program. Two grades below B- for course work taken within the Department will result in the automatic removal of that student from the Graduate Program. A grade below C- in a required graduate course cannot be applied towards a graduate degree and that course will have to be repeated.

Candidates must receive a grade of CR (credit) for credit/no-credit courses taken in the Department. If a student receives a grade of NC (no-credit), that course will have to be repeated. A NC grade will place that student on probation and trigger an immediate and mandatory full faculty review of that student who will be required to justify their continuance within the program. This review may result in the removal of that student from the Graduate Program. Two NC grades for course work taken within the Department will result in the removal of that student from the Graduate Program.

Students placed on departmental probation are ineligible for departmental merit-based scholarship support until they again meet departmental academic standards. Once a student meets departmental academic standards, the student is then considered in good standing, though their probation will remain on their record.

Candidates will be informed of their probationary status through a letter from the department Chair. Probationary candidates wishing to continue their program of study in the department will be invited to articulate a justification in writing to be presented formally to the full faculty. After a period of questioning from the faculty, the candidate will be dismissed for the remainder of the faculty deliberation. Candidates will then be notified of the results of the faculty review and any change to their probationary status in a formal letter from the Chair.

The focus of the Graduate Program is mature, in-depth artistic and scholarly research. Success in completing the Master of Fine Arts degree requires self-directed thought as well as sustained and completed efforts in all coursework and departmental responsibilities. It also requires responsibility, accountability and collegiality in one’s dealing with the faculty, other students and the department at large. If the full faculty agrees at the end of the first and/or second year of study
that the candidate’s citizenship is counterproductive to sustaining the collegial
dynamics necessary to complete all endeavors and maintain the social fabric that
those endeavors require (which include but are not limited to classroom seminars,
studio classes, theater crew, TA responsibilities and rehearsals) that student will
be called in for discussions with the director of Graduate Studies, the department
Chair and any other relevant faculty for the sake of due process. In the case that
the student is found at fault and unable or unwilling to implement the correctives
discussed and agreed upon in writing, the candidate may be dismissed from the
Graduate Program.
The Thesis Process

General Statement

The thesis is the culmination of a course of investigation that is the essence of an advanced degree. It consists of the development, implementation, presentation and oral defense of in-depth qualitative work, both theoretical and creative. The thesis is intended to provide the breadth and depth of knowledge necessary to prepare graduates for professional careers in dance. The thesis topic is conceptualized and implemented by each MFA student, focusing on a unified theme that may involve diverse elements of performance, choreography and other areas of interest. Thesis work should include a significant point of view, which contributes to a larger body of knowledge within the general dance profession. The thesis should focus on main areas of strength but should not exclude areas of challenge. In this endeavor, artistic work and scholarly research are intended to be integrated and mutually supportive. While all MFA candidates must demonstrate competency levels in technique, performance, choreography, teaching, and academic work during their graduate studies, each must also individually excel in their particular area of research.

Thesis development and implementation will be mentored by the faculty and supported by the course work taken. Thesis projects that include performance, choreographic, and/or technology components that require a stage production have the Fall Graduate Concert available as a presentation venue, contingent on faculty acceptance of the artistic plan and budget as developed by those graduates participating in the concert. Alternative venues are equally encouraged, valued and supported – please refer to Graduate Concert Policies and Protocol section of this handbook for further information. Each thesis should involve an artistic component(s), sound theoretical research directly related to that artistic investigation/interest/focus, grounded in supportive literature and personal reflection of the work done. Each candidate, once a thesis committee has been formed, may be provided a set stipend, to be determined by the Department Chair, to support his or her thesis work.

In one’s thesis work, it is expected that each student be self-motivated, self-directed and personally responsible for getting the work done in a timely and mature manner. It requires that a student be open to feedback, articulate about their thinking, and fully invested in all aspects of one’s thesis work. Doing so allows each candidate to work with his or her thesis committee in its intended role as mentors and advisors. If a candidate does not work to these expectations, the committee must then act in a more forceful way, placing the student in a less empowered position. Please work to avoid the latter scenario, which can place stress upon all involved.

The creative/performative component of the thesis (to be completed in one’s third year beyond work done in required courses) consists of both the creation and performance of a work central to the focus of the thesis, as is to be the centerpiece of a thesis portfolio of selected works created and/or performed by the candidate. The form of the thesis concert work as well as those other works constituting the portfolio is to be developed, discussed and ultimately approved by one’s thesis committee. Thesis work may involve choreography, performance, video, community projects, etc. The creative work must relate specifically to one’s thesis topic unless approved by one’s thesis committee. The
development of this work is overseen by one’s thesis committee in terms of artistic development, presentation form, presentation venue and assessment of its ability to fulfill the creative thesis requirement.

**Thesis Proposal**

With guidance from the dance faculty in Research Design, Thesis Research Studio and other course work, all MFA candidates will thoughtfully self-design thesis proposals which might include, but are not limited to, any configuration of: a variety of performance and/or choreographic experiences, interdisciplinary artistic works, interaction with populations within the extended community, dance technology, or topical research related to the specific focus of the project as a whole. The Thesis Proposal is a written and verbal proposal, along with a physical embodying and/or creative component such as a film, which articulates and demonstrates the core theme of the projected thesis project. To assist in the development and preparation of this proposal, each student will be assigned a faculty thesis proposal mentor. This assigned mentor need not serve on one’s actual thesis committee. Towards one’s thesis proposal development, the faculty in Thesis Research/Studio, the interim advisors, (and area appropriate faculty mentors) can also advise in the drafting of the thesis.

In keeping with a three-year program, all MFA candidates should complete thesis proposals at the end of their fourth semester. The proposal is intended to identify proportional components of specific interest as conceptualized by each candidate. The proposal format will be discussed in Thesis Research Studio and examples of successful thesis proposals made available for reference.

The thesis proposal is submitted and presented at the end of one’s fourth semester in Thesis Research Studio, in verbal/written/choreographic/performance and/or video form. It must include a working bibliography and a summary of the topic(s) under investigation. A section on *why* this is a topic worthy of research, *how* it is to be realized, and *when* it is to be implemented, with a timeline for completion, should be included. A student should present a clear and concise research question motivating the thesis investigation. If a student is unable to present, or chooses to delay presentation, their progress in the graduate program may be delayed.

Once the formal proposal is made, three outcomes are possible: (1) The proposal is accepted; (2) The proposal is conditionally accepted, meaning the ideas are worthy but the student must re-conceptualize or adapt the proposal as per faculty suggestions, continuing to refine it at the committee level until it is fully accepted; (3) The proposal is not approved and the student must begin with a new plan of action or significantly revise the existing one. The latter is not a typical outcome; students are well advised before their presentations and would not be in this category unless they had been unreceptive or unresponsive to faculty and pre-thesis mentor feedback. If for any reason the proposal as presented in Thesis Research Studio is not approved, non-approval will result in either a no-credit grade for this course (and the course must be taken again), or a T grade given; a T grade means that work is continuing and a final grade will be assigned once the proposal has been presented again and accepted. If one is required to repeat this course and the work does not improve, then that student may be removed from the program. Once full or conditional acceptance of the proposal is obtained, the thesis committee takes over the advising of thesis work. A student will receive written
notification of acceptance from the Graduate Director along with thesis guidelines, a
timetable for completion, and a contract covering one’s working relationship with his or
her thesis committee.

For thesis projects involving research with human subjects, including any interviews,
videotaping, etc., students must first apply to the Institutional Review Board (IRB) for
project approval. This process can take up to 2 months to complete and must be
approved before starting any data collection. Visit the IRB website at www.utah.edu/irb
or see Associate Professor Pamela Geber who has served on the IRB for more
information.

A final copy of the accepted thesis proposal will be kept on file with the director of
Graduate Studies. It serves as a contract between the student and their committee. Any
revisions to the proposal must be approved by one’s full thesis committee.

Creative Research Content Policy

The Department of Modern Dance’s approach to the ethics of creative research is in
accordance with the mission of the Institutional Review Board (IRB), which was
designed to protect the physical and psychological wellbeing of human subjects and
promote research practices that are consensual and non-coercive.

All students are advised to balance artistic risks with safety and respect for their peers
and audience. For students exploring content and/or methods of a potentially
controversial, explicit, or sensitive nature, please be mindful of our on-campus
stakeholders, including, but not limited to: your cast, fellow students, family, friends,
donors, faculty, university administration, general public and professional colleagues.

All student creative research designed for department-related performances must be
viewed by faculty mentors prior to their premiere. The department has final approval of
all works associated with it and reserves the right to remove any works from public
presentations should faculty notification and approval be neglected or avoided,

For issues of personal safety and departmental liability, as governed by both
Departmental and University-wide policy, students must fully disclose to their thesis
committee and the Department Chair any degree of nudity, acts, language, and/or other
material that might reasonably be considered by any member of an audience to be unsafe
or objectionable that takes place in works to be performed in any University-sponsored
performance, either on campus (MCD Theatre or Studio 240) or off-campus. The
department has final approval of all works associated with it.

Thesis Committee

The graduate student, upon successful completion of the thesis proposal then forms his
or her MFA committee. The committee consists of three members, one of whom serves
as committee chair. To form a committee, each candidate submits three names to the
director of Graduate Studies of whom they would like to serve as committee members,
along with whom they would like as Chair. Committee members should be selected on
the basis of expertise in content areas relevant to the project/thesis proposal. The faculty
will then meet to finalize each candidate’s committee. Each candidate is guaranteed to
have at least two Department members from their list on his or her committee regardless if all on the list are from within the Department, or if someone from outside of the Department is also being asked to serve. Committees are formed in this manner to provide each candidate with committee members as requested, yet also to spread the work more evenly among the faculty.

The Chair and at least one other committee member must be tenured or tenure-track Modern Dance Faculty. Lecturers may serve as committee members but not as Chairs. Adjunct faculty can serve if the Graduate School gives approval in writing. The student may choose a third committee member from faculty in other departments or professionals in the community with special permission granted by the Graduate School. Discuss the protocol for requesting an external committee member with your committee and the director of Graduate Studies. Committee selection should be made soon after thesis proposal acceptance and its members reported to the director of Graduate Studies. The Request for Supervisory Committee Form identifies who will serve on your committee and should be completed at this time with the director of Graduate Studies.

It is the responsibility of a candidate to work closely with his or her committee to bring the thesis to fruition. Thesis work is both mentored and sanctioned by their committee. All thesis-related work presented in a public venue must have committee approval prior to presentation. Students must meet with their committee on an on-going basis. These meetings are important opportunities to hone the project and its implementation, clarify thinking and guide the thesis. To monitor and assist work with one’s committee, each candidate will sign a contract outlining expectations of one’s relationship with their committee regarding meetings and showing of work. Failure to adhere to the thesis contract will result in the student not being able to complete one’s graduate work, or require an additional semester(s) work. Should one need to conduct orals past the semester of their anticipated graduation, a Thesis Research credit (6970) would be calculated at in-state rates. Any other classes would be calculated at out of state rates.

The following should occur in the thesis committee meetings:

• A student may be asked to further develop/clarify aspects of his/her proposal, and discuss any proficiencies/deficiencies in regard to the specific demands of the project/thesis.

• Student and committee members discuss criteria for evaluating both the project and written thesis components.

• Clear timelines are established to allow for ample feedback of both the artistic and written components of the thesis. Showings of works-in-progress and/or performance rehearsals should be set. A timeline for the written thesis should account for initial drafts, feedback, and revisions, with a deadline set for the submission of the final draft, at least two weeks prior to the scheduled oral defense.

**Project Implementation**

Once the thesis proposal has been accepted and a committee formed, work should begin on the project(s) as described in the thesis proposal. Candidates doing thesis related work must register for Thesis Research: Master’s - D6970, for each semester in which they are
involved in thesis related work. Thesis Research: Master’s enables candidates to gain credit for master’s level thesis work. Master’s thesis candidates must be enrolled for at least 1 Thesis Research credit during the semester of one’s thesis oral defense and must accrue at least 6 and up to 12 Thesis Research credits to fulfill degree requirements. An additional requirement of this course is that all those registered will meet regularly under the guidance of a faculty member to read and assist those currently writing their thesis. This will help those already in the writing process and prepare those who have yet to begin writing their formal thesis.

Thesis Portfolio Statement
The thesis, along with documentation of all creative and other scholarly work, representing the significant developments in one’s creative and theoretical research is called the Thesis Portfolio. The final written thesis document must include an “annotated bibliography” outlining all work produced in the program that the candidate feels played a significant role in their artistic and theoretical development. An annotated bibliography is a list of citations to dances, screendances, articles, community projects and other relevant documents the candidate has produced or in which has played a vital role. Each citation is followed by a brief (usually about 150 words) descriptive paragraph. Citations are to be determined in consultation with the thesis committee. The candidate will include reasons as to why the selected works are relevant to their artistic development. The annotated bibliography must be an appendix to the written thesis and must accompany the thesis at orals. The candidate must be in regular communication with their committee to ensure that their thesis portfolio fulfills the agreed upon expectations of the committee and the Department in terms of artistic development, presentation, form and venue.

Online portfolios
In addition to the annotated bibliography accompanying the written thesis, an online portfolio is to be created through a platform such as WordPress, Wix, Weebly, etc., to house the candidate’s aforementioned creative research, performances and/or publications.

Writing the Thesis
The written thesis is a 25-40 page document unless the committee recommends or agrees to an alternative length. Examples of successful theses are available for reference in the Marriott Library. There is no prescribed formula regarding content presentation of thesis information; this will vary from student to student. It should be concise, demonstrating both a depth of investigation and mature thought. Research Design and consultation with your committee should both provide helpful insights.

There are prescribed guidelines regarding the layout/format of the thesis. Students should consult the Manual for Theses and Dissertations available from the Thesis Editor in the Graduate School, Park Building, Room 302, to ensure that document guidelines are being fulfilled.

In order to facilitate your graduation plans, the first draft of your thesis must be given to your committee at least 8 weeks prior to the end of the semester in which you plan to hold your oral examination (see thesis contract for specific deadlines). Once your committee has approved a semi-final draft, it is recommended that you go to the Thesis Editor for a preliminary format check. This will save you both time and effort later. To guarantee graduation in the Spring you must submit the written thesis for
format approval to the Thesis Editor by the third week of March. A calendar listing due
dates for guaranteed completion in a given semester plus further thesis information may
be obtained on the graduate school web site at [www.utah.edu/gradschool](http://www.utah.edu/gradschool) under the
heading, Thesis Office.

To submit a manuscript for final format approval, a candidate must first obtain Final
Reading Approval. The thesis committee signs final Reading Approval forms at the
orals. **In order to schedule and hold one’s orals exam, the thesis must be entirely
finished and ready for the thesis editor, meaning no significant revisions are
required by the committee post orals (the Thesis Editor may require formatting
revisions though post orals).**

**Final Orals**
Candidates must accrue a minimum of 6 thesis credits in order to earn their MFA degree.
Candidates must be registered for at least 1 credit of Thesis Research – Master’s (D6970)
in the semester that they hold their orals. If a candidate does not complete their written
thesis and hold orals in one’s sixth semester, then he/she will be required to sign up for at
least another thesis credit in the semester he/she holds their orals even if it means taking
more that a total of 6 credit hours. Thesis Research credit (6970) would be calculated at
in-state rates. Any other classes would be calculated at out-of-state rates.

Candidates meet with their thesis committee in the oral defense to discuss and evaluate
the thesis project as well as other aspects of the candidate’s graduate study. The format
of orals usually begins first with a presentation by the candidate of a brief 5-10 minute
summery of their thesis work, followed by a discussion period based upon questions
posed by one’s thesis committee. The final orals serve as an opportunity for the
committee to ascertain the candidate’s level of informed proficiency within the particular
content areas of the project/thesis, the MFA curriculum taken, and areas of general
knowledge expected of Master’s level graduates within the field.

Candidates may schedule orals only with the approval of their committee once the written
thesis is entirely complete including all revisions as required by the committee. Each
candidate is responsible for arranging, well in advance, the meeting place and time
(check committee members’ availability), and having readied all necessary forms for the
orals. Candidates work with the Department Office Assistant to arrange this. Inform the
Office Assistant of the time of the thesis orals at least two weeks prior to the date agreed
upon by the committee. All orals must be publically announced and open to the public.

If successful, candidates will have demonstrated proficiency as identified earlier,
completed all necessary course work, presented complete documentation of their thesis
project (may include video/DVD) and submitted their written thesis in its final form. At
the conclusion of a successful orals defense, the following forms must be given to the
director of Graduate Studies: **Supervisory Committee Approval, Final Reading
Approval, Report of Final Thesis Grade Form, and Change of Final Grade Forms** to
assign a grade to Thesis Research credits (D 6970) from prior semesters. The student
must then complete all of the paperwork and graduation protocol as described below.

**Forms to go into Orals with Candidate:** *See the Office Assistant for these*

1. **Change of Grade Forms** (for Thesis Research: Master’s D6970) for any
   semesters prior to the semester of Orals in which the candidate received a grade of
2. Report of Final Thesis Grade Form (this form records the grade the candidate receives for Thesis Research: Master’s D6970 for the semester in which orals are held.

3. Supervisory Committee Approval Form

4. Final Reading Approval Form

Pick these forms up from the Office Assistant a few weeks before your Orals. Once the forms have been completed and have the appropriate signatures, immediately return them to the Office Assistant.

It is the Director of Graduate Studies’ responsibility to submit change of grade forms to the Registrar and to post the Thesis grade for the semester in which Orals are held.

In the unusual case a candidate is not successful in the oral defense, the committee meets with the student to identify a pathway for completion. This could include revision of the project and/or thesis. Additional course requirements or independent study of research topics to compensate for deficiencies in content areas relevant to the degree may be required. Candidates will not be allowed to schedule their orals unless there is the strong expectation of success.

Note: Many candidates find the deadlines for thesis completion within their final (6th) semester and subsequent scheduling of orals very difficult to meet, for orals must be completed mid-semester in the semester one expects to graduate. One option is to graduate in the following (summer) semester without having to take further credits. This allows a candidate until the end of their final (6th) semester to complete their thesis requirements. To do this, all thesis work must still be completed before the end of the semester, including orals (faculty are not available during the summer). If orals are not held and Final Reading Approval obtained by the end of the semester, then the candidate must re-enroll and graduate in the following Fall or Spring semester.

Digital Thesis Submission Steps

After your defense, please deliver a single-sided, hard copy of your thesis along with the signed Supervisory Committee Approval form and Final Reading Approval form to the Thesis Office, 302 Park Building. At the time of format approval, you will be given instructions by the Thesis Office for electronic submission of your manuscript for publication with ProQuest. A thesis release will be posted electronically after final approval of your submission. You may check your approval status through Grad Tracking. Your diploma will be issued through the Graduation Office.

A digital record of your final thesis creative research must be presented to the Graduate School for final housing on ProQuest, the private digital archive of the University of Utah. Students can receive information regarding the process for uploading any multimedia materials with the text of their thesis through the ETD (Electronic Thesis and Dissertation) Administrator, which is managed by the Graduate School. During the process of submitting their work, students can also choose to deposit their thesis (including video materials) into USpace, the institutional repository of the University of Utah. This is an open access archive that gives greater visibility to their work, ensuring that even individuals that don't have access to ProQuest through a subscription can still
access the students' work through USpace. If the students have used only their original works, then the library gets permission from them via forms from the Graduate School to digitally archive (i.e. copy, display, distribute). If graduate students use music by established composers beyond fair-use guidelines (such as amount, purpose, nature of the work, market effect, etc.), it is advised for issues of copyright, that you request permission from the artist's publishing company. If permission has not been granted, another option is to limit public access to your thesis work to the University of Utah campus community through ProQuest. Tools for assessing your fair use of copyrighted work can be found at http://www.librarycopyright.net/fairuse/ http://techtv.mit.edu/collections/mitlibraries/videos/4882-a-window-on-fair-use

THESIS TIMELINE

SEMSTERS 5 and 6
In these semesters, the following steps should be taken:

- Thesis project(s) implemented and mentored by committee
- Thesis projects publically presented
- Thesis written and approved by the thesis committee to advance to oral defense
- Final Orals Exam publicly advertised and held
- Graduation protocol followed through to degree granting

The following are required deadlines that must be met in order to assure completion of the thesis in your final semester in the program. Failure to meet these deadlines may put completion in jeopardy and if a candidate falls too far behind schedule, a thesis committee may mandate a postponement of orals to the next semester.

To graduate in the semester of one's orals, theses must be into the thesis editor and orals must be held by mid-semester. If orals are held at the end of the semester, a candidate will graduate in the following semester but will not have to pay for any further credits.

To Graduate in Semester of Orals

Semester Prior
1- Finish all creative work
2- Meet with thesis committee for in-depth thesis discussion
3- Complete outline form of thesis
4- Complete major portion of theoretical research
5- Supply graduation office with an Application for Graduate Degree.

Semester Break
Begin Writing

Semester of Orals
Week 1
Meet with committee for discussion
Week 2
1/2 of a thesis draft in to committee, 12 pages minimum
Week 3
Meet with committee for thesis draft feedback
Week 4
2nd half of thesis draft in to committee, additional 12 pages minimum
Week 5
Meet with committee for thesis draft feedback
Week 6  Compete draft of thesis presented to committee with re-writes as suggested by the committee from the initial drafts

Week 7  Meet with committee for thesis draft feedback
Week 8  2\textsuperscript{nd} thesis re-write presented to committee in final form
        Orals scheduled
Week 9  Orals Held
Week 10 Thesis submitted to Editor, grades submitted to Administrative Assistant
Week 11-16 Finish with the Thesis Editor

\textbf{To Graduate in the Semester Following Orals}

\textbf{Semester Prior}  
1- Finish all creative work  
2- Meet with thesis committee for in-depth thesis discussion  
3- Complete outline form of thesis  
4- Complete major portion of theoretical research

\textbf{Semester Break}  Begin Writing

\textbf{Semester of Orals}

Week 2  Meet with committee for discussion
Week 5  1/2 of a thesis draft in to committee, 12 pages minimum
Week 6  Meet with committee for thesis draft feedback
Week 8  2\textsuperscript{nd} half of thesis draft in to committee, additional 12 pages minimum
Week 9  Meet with committee for thesis draft feedback
Week 11 Compete draft of thesis presented to committee with re-writes as suggested by the committee from the initial drafts
Week 12  Meet with committee for thesis draft feedback
Week 13  2\textsuperscript{nd} thesis re-write presented to committee in final form
        Orals scheduled
Week 15  Orals Held
Post Semester End Thesis submitted to Editor, grades submitted to Administrative Assistant
        Finish with the Thesis Editor
MFA GRADUATE FORMS CHECKLIST

_____ Request for Supervisory Committee

_____ Master’s Application for Admission to Candidacy

_____ Report of the Final Examination for the Master’s Degree

_____ Supervisory Committee Thesis Approval

_____ Grade Change Forms (for each Thesis Research course previously assigned a T)

_____ Final Thesis Reading Approval

_____ Thesis Release

_____ Transcripts (unofficial ok)

EXPLANATION OF GRADUATE FORMS

Request for Supervisory Committee - identifies who will serve on your thesis committee and serve as chair of the committee. This is done right after your thesis proposal has been approved, end of third semester or early fourth semester. Your graduate advisor completes this form, but it is the candidate’s responsibility to meet with the graduate advisor in order to provide him/her with committee member names.

Master’s Application for Admission to Candidacy - is a final record of the course work the candidate wishes applied to their MFA Degree. The number of credit hours listed must be within one unit of the 61 credit requirement for the MFA Degree. The candidate must complete this form and provide it to the Graduate Advisor in their 5th semester, and update this form each subsequent semester. The form is available on-line on the College of Fine Arts web site. Final corrections and additions to this form are made at the time the thesis oral exam.

Report of the Final Examination for the Master’s Degree - is completed at the conclusion of your thesis oral exam by your thesis committee to verify that you have passed your orals.

Supervisory Committee Approval - is signed at the successful conclusion of the thesis oral exam by the thesis committee indicating the written thesis has been approved. Preliminary approval of the written thesis must be obtained from the thesis committee before orals can be scheduled.

Grade Change Forms - assign grades to Thesis Research credits from prior semesters. This is done at the conclusion of the oral exam, completed by the thesis chair and submitted by them to the Registrar.
Final Reading Approval – is signed by the chair of the thesis committee, usually at the conclusion of the oral exam. If the committee requests any changes/rewrites of the written thesis, these changes must be made before this form is signed.

Transcripts (unofficial ok) Candidates submit their transcripts, which include grades for all semesters to the College of Fine Arts along with the Report of the Final Examination for the Master’s Degree, Master’s Application for Admission to Candidacy form, the Supervisory Committee Approval (copy), and Final Reading Approval (copy).

Thesis Release The thesis editor provides this document when all thesis written work is completed and approved. The Thesis Release is required for the granting of the degree. Copies are sent to the College of Fine Arts, Graduation Office, the Department of Modern Dance and the candidate. Once received, the candidate should keep their Thesis Release in a safe place until the actual degree is received from the University.

Note: The Report of the Final Examination for the Master’s Degree, Master’s Application for Admission to Candidacy form, Supervisory Committee Approval, Grade Change forms and Final Reading Approval are brought with the candidate into the oral examination. Work with the Office Assistant to assure that these forms are ready for you.

Graduate Assistanships and Scholarship Information

Each spring the Department awards Teaching/Graduate Assistantships (TA/GA’s) and scholarships through an audition and application process, incoming graduate students by scholarship audition, returning graduates by application. In addition, the faculty may nominate returning graduate students for a University Teaching Assistantship (UTA), an award funded by the Graduate School.

All awards are merit based and rely heavily on one’s current standing in the Department or audition performance. The number and financial amount of each award may vary from year to year depending on the availability of Department funds. Funding and the teaching assignments attached to an assistantship are limited and consequently competitive; we unfortunately cannot support every graduate student. Funding decisions are difficult and made after serious consideration by the entire faculty. Continuing students who have received scholarships or TA/GA's will not automatically have them renewed but go through the application process at the end of each year. A student who has been awarded financial support must maintain required academic standards. A student placed on probation may have their funding taken away. Students with a GPA below 3.0 may not be considered for future Departmental financial support until their GPA is raise to 3.0 or above. A student whose GPA falls below a 3.0 during the year will lose their assistantship for the rest of that year.

As we cannot guarantee or provide departmental support for all graduate students all semesters, every out-of-state graduate student is strongly encouraged to establish Utah residency. This can now be done after 40 graduate credit hours and allows one to pay tuition at in-state rates. Establishing residency is not difficult. Check with the Graduate School for residency guidelines, 581-7642 or www.utah.edu/gradschool.

It should be assumed that no graduate student will receive TA/GA funding in their final semester, the semester in which they hold their orals. The reason behind this is that all credits except Thesis Research D6970 should have been taken. In the final semester by taking only Thesis Research D6970 credits, all students pay at in-state tuition rates. In addition, it is difficult if not impossible to fulfill the University requirement that one must be registered for a minimum of 9 credit hours in order to receive TA/GA funding. Finally, by not supporting a candidate in this final semester, the Department may consequently support a larger number of other graduate students.

Graduate Assistantship Applications can be found on our website at www.dance.utah.edu > Resources > Current Students > Forms
In addition to the GA awards, there are several merit-based endowed scholarships and awards given by the Department and University. Awards include:

**Integrated Movement Studies (IMS) Scholarships**
For students applying to the University of Utah's MFA program in Modern Dance, several full tuition graduate recruitment scholarships for the Integrated Movement Studies certification program are available. Contact the director, Janice Meaden if you are interested: jmeadenims@aol.com, (206) 849-4380.

**Orchesis Awards**
Each spring, Orchesis awards are given to students who have shown exceptional merit in the areas of performance, choreography, and/or production. Orchesis members currently enrolled in the university select award recipients, subject to faculty approval.

**Dee R. Winterton Award**
Each spring a student is chosen by the faculty who exemplifies the following qualities: creativity, humor and wit, abundance of spirit, love of the arts, love of dance, love of people, generous sharing of time and talent, and a striving for excellence.

**L. Scott Marsh Mentorship Award**
Each spring, a graduate student is chosen by the faculty to honor one who has "brought someone along" through example and encouragement. Specifically, the recipient has shown the following attributes: 1- Serves as a mentor by enabling others to fulfill their individual potential, 2- Exhibits leadership and administrative ability by inspiring others to work toward a shared vision, 3- Demonstrates a personal commitment to scholarship and the increase of knowledge within the field of modern dance.

**Department of Modern Dance Service Award**
Each spring, a student(s) is chosen by the faculty to honor one who has provided exceptional service to the department, university, local dance community and/or the community at large.

**For University-wide graduate financial support opportunities, contact:**

**University Graduate Fellowships**
Carol Bergstrom at 581-6020, carol.bergstrom@gradschool.utah.edu, or visit the Graduate School Office, 302 Park Building on campus. Also visit the Graduate School web site for further information, www.utah.edu/gradschool. Check out the Graduate Research Fellowship.
Graduate Concert & Alternative Thesis Project Policies

The below policies and protocol apply to MFA thesis productions in the MCD Hayes Christensen Theatre, MCD Studio 240 and alternative venues. The formal proscenium production of choreographic work is only one avenue for the fulfillment of a thesis project. Projects produced in alternative spaces are equally valued, supported and encouraged. All theses must include a public presentation of creative work.

Those who wish to present their work outside of the MCD Theatre must inform and work with their thesis committees to assure that these performances are feasible. While this format meets realities of the world, the logistics of alternative venues may complicate student, production crew, faculty and course schedules. Working off campus requires extra commitment from the candidate and their committee. All rentals, programming, publicity, costuming, security, insurance, technical resources and coordination will be at the cost of the MFA candidate.

Policies for MCD Productions

The Department of Modern Dance will provide:

- A faculty member to serve as overall concert/project advisor.
- MFA committee advisors to advise all individual thesis performance projects.
- The MCD Hayes Christensen Theatre for three or four performances depending on the number of choreographers involved.
- Concert/project poster, limited mailing, and programs if necessary.
- Costume advisement from the Department costume designer.
- Lighting design expertise from the Department technical director and/or other advice on site-specific works as necessary.
- Technical crew necessary for the running of all scheduled shows in MDC Theatre. Due to staff resource limitations, Studio 240 performances, off-site and site-specific works will require students to make arrangements for volunteer crew well in advance and/or find alternative technical support. All crew members must be approved by the Department Technical Director. Any performances done outside of the MCD Theatre can only happen with notification and approval of one’s thesis committee.
- Videotaping to document choreography in the MCD Theatre or Studio 240. Individual arrangements need to be made for alternative site documentation.

Protocol for Thesis-Related Creative Research

- Only students who have presented and passed their thesis proposals, and have established MFA committees, are eligible to participate on the graduate concert or in alternative MFA related production projects performed on or off campus.
- The thesis committee must approve all thesis projects before they can be publicly produced. The committee must also be invited to rehearsals/artistic development of all thesis projects on a regular basis.
- Existing costumes can be used with the permission of the Department costume designer with cleaning costs to be paid by the student.
• The graduate concert in the MCD Theater with pauses and intermissions(s) will not exceed 2 hours of total concert time and/or a maximum of 80 minutes of actual dance time.
• To accommodate more than 80 minutes of dance and ensure equity, students may need to establish an A and B program on alternative nights.
• Concerts will start at 7:30 PM in keeping with all other Department concert starting times unless otherwise previously approved.
• The faculty concert advisor, front office, and the Chair, must proofread posters and all other publicity materials.
• All MFA students are expected to remain in constant communication with their supervisory committees throughout the production process. Failure to do so may result in the production of a work being cancelled.
• Inclusion in the Graduate Concert is predicated on committee involvement and their approval of the work’s readiness to be performed.
• Candidates not working effectively with cast, crew, faculty, staff or committee are also grounds for non-inclusion.
• Thesis work must be viewed twice before and twice after the salon (once each must be for the full committee.)
• A thesis committee representative(s) should be present at the lighting, tech and concert dress rehearsal and/or alternate venue project run-through, and should be consulted by the student for final feedback and suggestions.

All candidates must be acquainted with the Department Creative Research Content Policy on p. 18.
Technology Statement

Developments in the areas of performance and technology have been broad, far-reaching and tremendously exciting. The University of Utah's Department of Modern Dance has become involved in these developments by producing works that utilize technology and visual media (video and computer generated), and by engaging in the resultant critical and aesthetic discourse.

Artistic investigation has historically collaborated with technological advancements, and research in the area of Dance and Technology is at the forefront of scholarly inquiry in the arts. It is a relatively new field in higher education with exciting and far-reaching potential as it incorporates all of the arts (music, visual art, media, etc.), along with the most current advances in communication technologies.

Curriculum within the Department has expanded to include coursework in digital image manipulation, video and digital editing, and interdisciplinary arts, taught collaboratively in conjunction with the Art and Music Departments. Opportunities exist for graduate students to conduct their creative research in the area of Dance and technology.
Integrated Movement Studies (IMS) Certification Program

Integrated Movement Studies is very pleased to announce that the University of Utah is offering the unique opportunity for MFA graduate students in Modern Dance to further enrich their graduate education by enrolling in the Integrated Movement Studies Certificate Program in Laban/Bartenieff Movement Analysis. This bold step ensures the University of Utah's place as the major center for not only Dance, but also the larger area of Movement Study in the country. The University, for each Certificate Program, will offer several full-tuition scholarships.

A Certificate Program in Laban/Bartenieff Movement Studies is already in place in the Department of Modern Dance, with students coming from around the world to study with the excellent and innovative faculty of the IMS program. The Department has recognized the power of the Laban/Bartenieff work as a tool, and has also had the vision to see that the field of Movement Studies will eventually make important contributions to humankind's knowledge in areas outside of Dance as well, thus encouraging scholarly work in the very important area of research into the fundamental nature of movement. Why is this important?

We believe that in the future, an understanding of the essential elements of movement will be paramount in grappling with understanding CHANGE in any field, because the essence of change is movement. As human beings, we "swim" in a sea of movement, yet it is practically invisible to us--as water is to fish. The Laban/Bartenieff work provides tools for actually seeing and recording movement and awakening to its messages. The system is a powerful tool for artistic and scholarly growth. Just as musicians need an understanding of music theory, so professionals in the field of Dance need to be fully versed in the theory that underlies their own field.

Laban/Bartenieff Movement Analysis provides a very comprehensive theoretical framework for the study of movement and its meaning. We encourage all graduate students in the Department of Modern Dance to consider enriching their education with this innovative program.

Today's complex world requires versatile, creative approaches to education, work, healing, art, and community. Practice and understanding of movement is vital in training people for active participation in a challenging, changing culture. An understanding of human communication requires intelligence grounded in the body. The Integrated Movement Studies Certificate Program is a graduate program for the comprehensive study of human movement and its meaning.

Participants in this program will gain an understanding of the structural, functional and expressive aspects of human movement. Students become more coordinated and dynamic as movers. They learn to observe recurring patterns, personal preferences, and how to facilitate new movement possibilities in themselves and others for professional development.
IMS Credits
MFA candidates can acquire a maximum of 6 credits if the IMS information is germane to their thesis research.
General Information -- Departmental

Student Advisory Committee (SAC)
Each class, freshman through graduate, elects a representative and alternate, with a SAC chair elected from these representatives. Representatives meet periodically throughout the academic year to advise the faculty of student requests and serve as a liaison between students and the faculty. SAC also conducts all formal student evaluations of faculty and has input on faculty promotion, retention, tenure and hiring decisions.

Student Request Committee
The Student Request Committee is made up of two regular faculty members. Any request for exceptions to departmental policy, procedure, or curriculum must be submitted in writing to the chair of the committee after consultation with a course instructor and/or advisor. Student Request forms are available in the department office. Examples of requests are for leave of absences (illness, study away, financial problems, etc.), temporary withdrawal from the program, variation in registration procedures, reductions of credit, course requirement waivers, and/or transfer of credit.

Student Code
The Department of Modern Dance expects students to behave ethically at all times. The University-wide student code is spelled out in the General Catalogue, pp. 11-20. From that code, students have specific rights in the classroom as detailed in Article III. The code also specifies proscribed conduct with Article XI specifically discussing cheating on tests, plagiarism, and/or collusion, as well as fraud, theft, etc. Students should read the code carefully to become aware of these issues, and know they are responsible for the content. Students may receive sanctions for violating one or more of these proscriptions. Instructors in all classes will enforce the code; cheating and plagiarism will result in appropriate penalties, such as a failing grade on a specific exam or in the course, and/or expulsion from the course. Students have the right to appeal such action to the student behavior committee.

Course Credit Adjustments (Reduction of Credit Policy)
Accommodations for injury, illness, or special circumstance in the form of reduced credit must be dealt with through the appropriate faculty member and through the Student Request Committee. Only technique may be taken for reduced credit. Once a reduction of credit has been approved by a specific instructor, a request must be made in written form through the Student Request Committee. If the Student Request Committee approves the reduction of credit, it is the student's responsibility to complete the Course Credit Adjustment Form (available from the department office) and have it in the Dean's office at least two weeks before the last day of class. See the Chair of the Student Request Committee for specific details.
Equipment and Facilities

Students, in respect to the Department and their peers, are expected to maintain the cleanliness of studios, classrooms, and lounges. While it is necessary to eat in the building, students are expected to clean up after themselves. Smoking is not permitted in the building in compliance with the Utah Indoor Clean Air Act. *Food and drink (except water) are not permitted in the studios.*

University building maintenance personnel are responsible for the upkeep of the floors, windows, heating, lighting, etc. in all department facilities. Any problem with the facilities should be reported to the department office or to a Modern Dance faculty member.

Students may check out a locker at the beginning of the year by placing their own lock on an available locker. Once they have chosen a locker, they need to report their locker number to the Department Secretary. Students are required to vacate lockers at the end of spring semester. Any remaining locks will be removed by the department and locker contents given to charity. Students should be sure that all valuables are locked in their lockers in order to prevent theft.

Studios may be used for rehearsals when not being used for classes. Students reserve space by signing up as per the studio schedule policy posted outside studio #240. Studio scheduling is done weekly by a designated graduate assistant, and space is allocated on a departmental priority basis. *Rehearsal space is at a premium*-- in the event that your rehearsal is cancelled, please remove your name from the posted studio schedule. Sound equipment is available in each studio for rehearsals. Video equipment is also available for use in the studio by modern dance majors. Videos may be viewed in the audio-visual room during posted hours or in Room #230 when available.

Department announcements are posted on bulletin boards adjacent to the studios. Students should make it a habit to check these areas regularly. In addition to the department information areas, general-information bulletin boards are located in the student lounge. Costume/production notices are posted on the bulletin board outside the costume shop. Students are responsible for checking this board daily during production preparation and performances.

Modern dance majors may use the recreation facilities located in the Einar Nielsen Field House on campus. The swimming pool and other facilities located in the HPER complex are also available to students during scheduled hours.

Department Performances

The Marriott Center for Dance Hayes/Christensen Theater is shared by both the Modern Dance and Ballet Departments for faculty and student performances. Modern dance performances include Performing Dance Company (PDC), faculty concerts, graduate thesis concerts, senior concerts, and an optional alternative concert. In addition to these formal concerts there are numerous informal showings and other performances scheduled in the department’s studio theater (MCD 240) throughout the year. Additionally, the department participates yearly in an American College Dance
Festival Association’s regional festival, and often in the national festival held biannually at the Kennedy Center in Washington DC.

Because of the number of performances presented each semester, it is very easy for a student to become over committed. While performances are an integral part of student preparation, they do not take priority over regular course work. Students should make performance commitments with care to avoid injury and jeopardizing their academic standing.

**Performing Dance Company (PDC)**

Performing Dance Company (PDC) gives students the opportunity to work with professional choreographers - University of Utah faculty and guest artists. PDC presents at least two concerts each academic year. Additionally the company may tour, teach master classes, perform lecture-demonstrations, and participate in the American College Dance Festival adjudicated performances.

Auditions for PDC are usually held the first week of each semester. A student auditioning for the company must have the following hours open for rehearsal: M-F from 3:40 to 6:30 PM. Students auditioning for the company must be registered, full-time modern dance majors. Members selected for PDC may receive up to three hours of performance credit each semester (Dance 4388/6388), one credit for each piece they are in.

**Theater, Production, Costume Regulations**

- Use of the Hayes/Christensen Theater is subject to approval and must be scheduled through the MCD technical director’s office.
- The control booth and the video equipment storage room may be opened by authorized personnel only.
- All press releases, programs, and posters must have the approval of the Department chair. Posters must be approved and stamped by ASUU for campus posting.
- Student choreographers are responsible for the purchase, construction and removal of all sets, and for any costumes used in their dances. Students may use certain costumes from the storage racks with approval of the costume supervisor.
- Costume fittings for Performing Dance Company members will be posted on the bulletin board outside the costume shop each week. *Please make daily checks.*
- General costume information: Be on time for fittings (you may otherwise find yourself without a costume on performance night); NO smoking, eating, or drinking (except water) while in costume. For additional information regarding costumes, see costume supervisor.
General Theater and Production Information

• No food or drink backstage or in the seating area of the theater.
• No smoking.
• Dancers in costume are not allowed in the seating area or lobby.
• No visitors allowed backstage--no exceptions. (Make arrangements to have family and friends meet in the lobby or dressing area after performances.)
• Do not touch anything that is not assigned to you as a prop.
• Check the callboard daily for production schedules and changes.
• You are responsible for all articles brought backstage, such as warmers, slippers, and costumes.
• You must personally sign in at least 90 minutes before curtain call.
• Take all problems, questions, and concerns to the stage manager.
• The stage manager has complete authority during production.
Technique Standards: Levels I-IV

Technique skills are built to facilitate choreography and performance. Choreography that is of an idiosyncratic nature to a high degree could demand additional specific conditioning or coaching in order for students to successfully accomplish and perform the material while remaining injury free (i.e. athletic, gymnastic, and/or genre specific vocabulary). In other cases specific coaching for the use of text/vocalization might be necessary in order for dancers to perform more theatrical works effectively and convincingly. Overall strength, connectivity, body awareness, and finesse are necessary to maximize aesthetic performance and to minimize the risk of injury in today’s dance students.

In addition to the core Modern Dance technique courses, our curriculum includes a wide array of movement experiences ranging from ballet for modern dance students, West African, jazz, and other diverse cultural forms (folk dances, hip hop, flamenco, etc…). As students progress through 4 years of their technique training, it is our goal that they should become steadily more connected, strong (not to be confused with rigid or stiffly controlled), increase their ability to articulate the torso with specificity and integrate its relationship to the limbs and vice versa, specific clarity and articulate use of the feet and legs, arms, and back, head and neck. Students at each level are expected to be self motivated – intrinsically, core connection is a core value of all of the technique teachers as is the application of strength building and integrative patterning “exercises” perfected in the conditioning and movement fundamentals series during the first year, as well as inside of the technique classes themselves.

All dance majors are required to advance to Level III and successfully complete Dance 3310/3320. However, most students advance to and successfully complete Level IV Dance 4310/4320.

LEVEL I: Students in this level would be entering freshmen in the Modern Dance major. Entering students audition for acceptance and typically must have had previous dance training or other equivalent physical training/experience that has provided muscular conditioning, flexibility, coordination, rhythmic acuity, internal intention linking to external expression, spatial awareness, and a certain level of understanding of dynamic alignment in vertical that is energized and threaded together in at least basic and even more desirable at an intermediate level. Ideally, level one students would not have had training that is so strongly coded in other genres (such as ballet or jazz) that it prohibits their ability to embody modern training that is more released, immediate, clear of mannerisms, and affectations, and accessible to kinetic investigation.

The primary focus in Level I is on “WHAT I am doing.” This is a beginning level.

Students in Level I will develop proficiency in:

- Efficient modes of moving (including basic principles of dynamic alignment, momentum, and initiation).
  - Understanding of: core support, neutral pelvis placement (vs. under tucking or hyperextension, use of plie and cushioning through the feet.
• Individual difference and awareness of unique limitations such as hip socket range of motion and outward rotation within those limitations so as to maintain pelvic stability (Note: stability may not always be desired but level one students need to understand a working base line of support).
  o Articulation of outward rotation and parallel positions of feet and legs.
  o Understanding of pronation and supination.
  o Support leg strength and stability.
  • Demonstration and understanding of fundamental concepts of total body organization as related to overall movement literacy. Concepts of total body organization include:  Breath support, core distal, head tail, upper lower, body half, and cross lateral (or other similar concepts of total body integration and organization.
  o Comfortable with going off vertical and finding it again.
  o Introduction to Pilates mat and reformer work as well as movement fundamentals (Bartenieff Fundamentals) and Laban analysis.

  • Ability to investigate energy qualities (with breath support).
  • Ability to understand and demonstrate basic rhythmic structures and patterns.
  • Understanding of personal and environmental space – Concept of directing and projecting energy within the body and/or into space.
  • Introduction to spatial concepts of planes, dimensions, directions, levels, and spatial pulls and tensions.
  • Ability to acquire sequential movement material.
  • Familiarity with basic locomotor movements and mechanics and coordination of weight shift, level change, and inverted movements (walking, running, leaping, skipping, hopping, undercurves, overcurves, falls, handstands, etc…).
  • Development of intrinsically motivated, committed work ethic and best practices of nutrition and healthy life style habits.

LEVEL II: Primary focus is on “WHERE I am sending my attention and where I am in relation to my environment.” This is an Intermediate level.

Students will have a proficiency in the Standards in Level I. They will also have a proficiency in the following Standards:

  • Ability to risk and expand one’s spatial parameters – Development of increased drive through space.
  • Ability to sense one’s weight and incorporate that weight in both on-balance and off-balance movement (including the use of momentum and weight release)
  • Comfortable with going off vertical and finding it again.
    o Low center of gravity and investigation of weight (and lightness).
    o Stability/Mobility awareness and facility
    o Demonstration and understanding of movement initiation and subsequent movement follow-through.
    o Increased facility in adapting to new teaching methods and styles
    o Sequencing becomes easeful
  • Ability to execute energy modulations with breath support – A greater level of effort efficiency than in level I.
  • Demonstration and understanding of rhythmic acuity
• Demonstration and understanding of breath support in metric and non-metric phrasing (development of melodic breath)
  o Embodiment of musicality and more complex phrasing.
• Ability to acquire movement material, sequentially and qualitatively.
• Understanding of kinesiology being developed in theory and embodied in technique and conditioning contexts.
• Knowledge of and continued practice of sound practice of conditioning, nutrition, and healthy lifestyle habits.

LEVEL III: Primary focus is on “How I am doing what I’m doing – Quality”

This is an Advanced Level - Students will have a proficiency in the Standards in Levels I and II. Additionally, they will demonstrate an aptitude in both their movement expressivity and their technical foundation and increasing expertise. Students will also have a proficiency in the following areas, although they may occasionally lack consistency in one or more of these Standards:

• Demonstration of expressivity in metric or non-metric phrasing
• Appetite to fulfill the movement spatially, qualitatively, and melodically with fluidity and integration
  o Seamless transitions and sophistication of phrasing
  o Drive through space in all planes, levels, and directions is committed and easeful
• Understanding and demonstration of breath support to fulfill one’s own individual performing “voice”
• Ability to more quickly and easefully acquire axial and/or locomotor sequential movement material with a qualitative sensibility.
  o Sequencing becomes easeful
  o Increased facility in adapting to new teaching methods and styles
  o Ability to embody material fully and qualitatively and to perform it with clear intention takes place with decreased processing time (i.e. longer and more complex phrases are expected to be performed well with less time spent on explanation).
  o Ability to commit and follow through with clarity
• Acquisition of mature work ethic and habits consistent with those of a future member of the dance profession.
• Increased level of conditioning to facilitate increased demands in athleticism, strength specificity especially in the use of legs and feet as they facilitate going into the air and landing or the use of arms, hands, and back as they facilitate inverted movements or weight shifts.
• As students progress through level III they find a balance between strength and fluidity.
• Comfortable with propulsion (push – reach-pull) and lower to upper and upper to lower body phrasing and connectivity.
• Freedom and accessibility to 3-dimensional movement and spiraling.
• Transverse movement facility.
• Understanding the difference between release of excess tension and relaxation or passive weight with no core support.
• Knowledge of and continued practice of sound practice of conditioning, nutrition, and healthy lifestyle habits.

**LEVEL IV:** Focus integrates “What, Where, How and now involves Why I am doing what I’m doing.” This is a Pre-Professional Level.

Students will have a proficiency in the Standards in Levels I, II and III. Additionally, they will demonstrate an aptitude in both their movement expressivity and their technical underpinnings. As more mature dance student performers, they will also have a consistent proficiency in the following Standards:

• Students at this level should be conditioned at an elite level.
• Understanding and full demonstration of movement melody (incorporating melodic breath, dynamic modulations, textural nuances, and rhythmic acuity).
• Ability to quickly acquire axial and/or locomotor movement material, both sequentially and qualitatively, with a full understanding of melodic breath, dynamic modulations, textural nuances, and rhythmic acuity.
• Student is facile at performing in multiple genres and styles and is adept at reading and interpreting movement phrases
• Full qualitative and technical skill investment and integration of these dimensions.
• The ideal level IV student doesn’t wait for personal feedback. They see all general feedback and peer coaching as applicable.
• They are at home with their bodies but are pro-active in seeking new information – willing to investigate new information.
• A level IV student is strong without being locked and fluid/released without losing attention to clarity and line.
• Availability to an increased intensity in the learning process
• Integration – connected movers. Integration physically, mentally, emotionally such that they are more versatile.
• Confidence as a performer to fully embody one’s own movement voice.
• Ability to fulfill and/or surrender to the spatial, qualitative, and temporal parameters in movement phrases.
• As students progress they both pick up on movement subtleties (Become good translators of movement) and increasingly personalize movement (use technique for personal expression
• Embodiment of mature work ethic and habits, consistent with those of a professional performer.
• A Level IV student has a sense of the whole while being able to articulate parts. A good sense of their center and proprioception of their body in relation to that center.
• Efficiency is realized.
• Continued sound practice of conditioning, nutrition, and healthy lifestyle habits (hopefully beyond graduation – into professional work and life).
WRGP makes high-quality, distinctive graduate programs available to students of the West at a reasonable cost. As part of the Student Exchange Program of the Western Interstate Commission for Higher Education (WICHE) WRGP helps place students in a wide range of graduate programs, all designed around the educational, social, and economic needs of the West.

Through WRGP, residents of Alaska, Arizona, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming are eligible to enroll in available programs outside of their home state to pay 150% of resident tuition. Students need not meet financial aid criteria.

To be included in WRGP, programs must meet the criteria of distinctiveness and quality. Programs are nominated by their institutions, peer reviewed by other graduate institutions in the West, and approved biannually by the Student Exchange Program Advisory Council, a policy body that represents all participating states.

To receive WRGP tuition status, students apply directly to The University of Utah Department of Modern Dance and identify themselves as WICHE WRGP applicants. WRGP students must fulfill all the usual requirements of the institution concerned and meet all admission deadlines.

For further information:
http://www.wiche.edu
PERSONAL SAFETY ISSUES

University of Utah Security Escort Service: campus police will be happy to escort you from the Marriott Center for Dance to your car after dark. Telephone: 581-7944

The University of Utah campus is a relatively safe environment, however problems do occur and we caution you to be alert at all times. Assault and rape have been reported on the grounds of the university as well as in university housing. For your protection please remember.....

Safety In The Dance Building

• The Dance Building is locked on evenings and weekends for your safety. Never prop open outside doors or admit people into the building that you do not know.
• If you are rehearsing during evenings or on weekends, keep the studio doors closed for your own safety.
• If you see anyone who you suspect does not belong in or around the building, do not hesitate to contact Campus Police. Also, please notify the front office as soon as possible.
• In each of the dance studios there are panic buttons connected to Campus Police. If you ever feel in jeopardy, stay in the locked studio and press the panic button.
• Safeguard your valuables at all times by keeping them in your lockers or with you in the studio. Do not leave valuables unattended in the hallway.
• If you are rehearsing late at night, safety escort service is available to safeguard the trip to your car or to the dormitory. You can call them from the courtesy phone at 581-7944 and ask to be escorted to your car after dark.

Safety At Home

• Lock your door even if you're only going to be gone a short time. It only takes a moment for an attacker to enter your room or apartment.
• Never open your door to a stranger, especially if you're alone.
• Make sure all lights in your dorm or apartment are working. If necessary, demand better lighting and locks from resident management.
• Be aware of darkly lit areas around your dorm or apartment such as laundry rooms, parking lots or stairwells.
• When the dormitory's front door has been locked for the night, do not prop it open. Carry your keys with you at all times.
• If you encounter any suspicious circumstances or individuals, immediately report them to the police.
Safety While Walking

- Avoid walking alone as much as possible. Your best defense is having others nearby.
- Avoid poorly lit streets, unpopulated areas, alleys, vacant lots and buildings.
- Notice stores or restaurants that are open, should you need to ask for help.
- Walk near the curb and avoid passing close to shrubbery, dark doorways, and other places of concealment. Do not take shortcuts.
- Walk on the side of the street facing traffic. That way, you can see all automobiles facing you.
- Do not hitchhike.

Safety In Your Car

- Have the car key in your hand when you leave your home or office to go to your car.
- Park in well-lit areas and always lock the car doors.
- Before getting in, check the floor of the back seat for intruders.
- Have your house keys in hand before getting out of your car at home.
- If you work late, don't go to your car alone if you can avoid it. Ask for an escort or arrange to leave in a group.
- Keep your car doors locked and windows raised so that a person cannot reach in and unlock a door when you stop the car.
- Never pick up hitchhikers -- of either sex.
- If you suspect your car is being followed, drive into a busy, well-lit street or business area.
- If you have car trouble, signal for help by raising the hood or tying a white handkerchief to the door handle. Remain inside the car with doors locked until identified help arrives.
- Should another motorist offer help, roll down the window only an inch and ask him to call the police department.
- If the person who stops is threatening, sound your horn frantically when another vehicle passes or until the person leaves.
- Make sure you have enough gas for your entire trip before you start.
Information Bulletin From The University Of Utah’s
Office Of Equal Opportunity And Affirmative Action

What Is Sexual Harassment?
Sexual Harassment is unwanted, unwelcome behavior of a sexual nature. It is usually repeated behavior, but also could be one serious incident.

While we agree that no one should be sexually harassed, many people have trouble deciding what constitutes sexual harassment. Sexual harassment falls into two categories:

- Unwelcome advances and requests for sexual favors that affect or could affect decisions about grades, promotions or raises (otherwise known as “quid pro quo”); and
- A “hostile” environment created by such behavior as sexual jokes or remarks, unwelcome physical contact, or sexually explicit pictures.
- Sexual harassment usually occurs in situations where one person has power over another, but it can also occur between equals. In particular, any other person(s) may create a “hostile” environment for an individual or group if the behavior(s) meets the three criteria as listed below.

What Constitutes A Hostile Environment?
Conduct that constitutes a hostile environment consists of three elements:
1) sexual in nature
2) severe and pervasive
3) unwelcome

Sexual Harassment Is Illegal
Sexual harassment violates Title VII of the Civil Rights Act of 1964, Title IX of the Educational Amendments Act of 1972, the Civil Rights Act of 1991, the Utah Anti-Discrimination Act of 1965 as well as University (of Utah) policy, 2-32.

Facts to Remember:
- Sexual harassment is primarily an issue of power, not sex.
- Sexual harassment is a form of discrimination. It can occur between men and women, men and other men, or women and other women.
- The largest percentage of sexual harassment cases involve verbal rather than physical behavior.
- The problem of sexual harassment does not go away by avoiding the harasser or ignoring the behavior.
SEXUAL HARASSMENT AND ACADEMIC FREEDOM
Academic Freedom requires an environment in which no person is intimidated, exploited or coerced. Sexual harassment, in any of its many guises, hinders academic freedom. The University’s policies and procedures for dealing with sexual harassment have been designed to ensure the academic freedom of everyone while protecting the rights of all.

Examples of Behaviors That May Lead to Sexual Harassment Complaints
The examples below illustrate the range of behavior that may be considered sexual harassment. These examples are intended as illustrations only; they are by no means inclusive:

- Carl, an instructor for a large introductory course, uses sex-stereotyped references and depictions and often makes jokes about sex. He has suggested that the better looking a woman is, the more help she will get. Sandra is a student in Carl’s class who needs extra help. She is deeply offended by the instructor’s attitude and refuses to see him outside of class.

- Robert is a senior with a 3.9 GPA whose professor has repeatedly asked him to go out with her. He declined. Now he finds that his papers in her class are getting low grades and he may get a C- for the course. He is sure that this is in retaliation for his refusals.

- Annette’s coworker repeatedly makes sexual comments and jokes about women during staff meetings and around the office. Annette finds these remarks insulting and she has spoken to her supervisor. Her supervisor tells her that she is too sensitive and she should ignore the remarks.

- Sophomore Tanya depends on her work-study job to stay in school. On Saturday while she was alone with her boss, he put his arms around her and invited her to go home with him that night. She ran away from him and did not go back to work. Now she cannot pay tuition.
What Can You Do About Sexual Harassment?

As a faculty member,
Make sure you are aware of how classroom behavior and interaction with students may constitute, or be construed, as sexual harassment. Discuss the issue with your students. You have a legal responsibility to provide an environment free of sexual harassment.

As a supervisor,
you have a special legal responsibility to stop sexual harassment. At the University, supervisors include department chairs, directors, administrators and any other person who is responsible for the work of another employee. Supervisors must deal with any harassing behaviors of which they become aware. The courts have found that employers may be responsible if they either knew, or reasonably should have known, about sexual harassment.

If a student or employee reports harassment to you, listen carefully, explain the University’s sexual harassment policy and encourage the person to contact the Office Equal Opportunity and Affirmative Action as soon as possible. Even if the person chooses not to pursue the complaint, it is important that you advise the Office of Equal Opportunity and Affirmative Action of the situation.

As a student,
you should be aware that your behavior is governed by the University’s sexual harassment policy in contexts such as student organizations, student employment and residence halls, as well as in classrooms and other campus facilities.

As a member of the University Community,
you should report any harassment of which you become aware, and you should be sensitive to how others view what you say and do.

AVOIDING CHARGES OF SEXUAL HARASSMENT
If you are in a position of authority and are uncertain as to what is appropriate interaction in a professional or academic environment, the following questions may help guide your behavior:

• Would you behave in such a way if your child, spouse or significant other were present?
• Would you want your child, spouse or significant other treated in such a way?
• Do you and the other person have equal authority?
• Are you aware that you may be offending unintentionally?
• Does the other person initiate similar behavior?

As a general rule, any time you are in a position of authority, dating an employee or student, or even physical contact beyond a professional handshake leaves you vulnerable
to charges of sexual harassment. Such charges can mean civil lawsuits for you and your employer, costing hundreds of thousands of dollars, not to mention public embarrassment and damage to your professional reputation. If you have doubts about your behavior, it is not worth the risk.

The changing roles of men and women – socially, academically and professionally – have added a new dimension to male/female interaction, presenting new rules and new risks. Sexual harassment is a part of the learning curve where we must separate appropriate behavior from inappropriate behavior.

Confusion persists, but it is still possible to learn without hurting ourselves or each other. In Utah, sexual harassment prevention training is mandatory for state employees. The Office of Equal Opportunity and Affirmative Action (OEO/AA) offers free sexual harassment prevention training to faculty, staff and student groups. OEO/AA staff is also available for individual consultation.

**What To Do If You Are Harassed**

If you find yourself feeling uncomfortable about someone’s behavior related to a sexual issue, you may be experiencing sexual harassment. As illustrated in the examples, sexual harassment includes a range of behaviors, some more harmful than others, but none are acceptable. If you are uncertain about whether something happening to you is sexual harassment, talk to someone you trust about the situation or call the OEO/AA at (801)581-8365.

If the person harassing you has power over your education or employment, it is understandable that you might fear reprisal if you take steps to end the harassment. You have a right to pursue your education and conduct your job in an environment free of this kind of interference. The University’s policies are intended to protect you against reprisals.

**Don’t Ignore It, It Won’t Go Away**

Early efforts to control a potentially harassing situation are very important. Sometimes you can stop sexual harassment by telling the person directly that you’re uncomfortable with his/her behavior and want it to stop.

**If Sexual Harassment Doesn’t Stop**

The University is committed to stopping sexual harassment, but we can’t stop it unless we know about it.

**Where can you go for help?**

If you are unsure about a possible sexual harassment situation, or if efforts to stop a problem have not worked, there are people who will listen and provide assistance. Contact the Office of Equal Opportunity & Affirmative Action, 135 Park Building, 581-8365 (Voice or TDD), for information, consultation on the most appropriate course of action and help with resolution. The University has both informal and formal resolution procedures.
Sexual Harassment 2-6a University Policy

Open Discussion
The free and open discussion of issues or theories relating to sexuality or gender in an academic setting or professional setting, when appropriate to subject matter, will be presumed not to constitute sexual harassment even if it offends or embarrasses an individual unless other factors are involved. Such factors may include targeting the discussion to an individual or carrying out the discussion in terms that are both unnecessary and gratuitously offensive.

Consensual Relationships
Romantic or sexual relationships between a staff supervisor and a staff member or between a faculty member (or a supervisor or staff member) and a student are generally unwise because of the power imbalance in the relationship. When a faculty or staff member has any direct professional responsibility of evaluating the student’s academic or job performance or professional future, such as assigning grades, evaluating clinical performance, serving on the student’s graduate committee or awarding scholarships, a romantic or sexual relationship between faculty or staff members and students, even if a mutually consenting one, will be considered to constitute a violation of University Policy 2-6A. This will be cause for discipline under 2-32, unless the situation is remedied by reassigning performance evaluations, reporting responsibilities, or grade assignments to other qualified individuals. Faculty or staff who engage in such consensual relationships and do not take steps to resolve the conflict of interest may be subject to the filing of a complaint under 2-32 or under the code of Faculty Responsibility, 8-12.

Equal Opportunity For People With Disabilities

University Policy
The University of Utah is fully committed to policies of equal opportunity and nondiscrimination. Accordingly, people with disabilities shall not be subject to discrimination in any University educational program or service.

The Americans with Disabilities Act of 1990 (ADA) provides federal civil rights protection in several areas for people with disabilities.

The ADA prohibits discrimination against people with disabilities in employment and public services and promotes their full participation and access to all aspects of society.

A person with a disability is defined as:

- any individual who has a physical or mental impairment that substantially limits a major life activity (e.g. walking, hearing, seeing, breathing, learning, working); or
- anyone who is regarded as having such an impairment; or
- anyone who has a record of such an impairment.
Note: The ADA does not protect current illegal drug users nor individuals who pose a direct health or safety threat to themselves or others in a specific job position after reasonable accommodations have been attempted.

**Employment**

The Americans with Disabilities Act (ADA) prohibits discrimination against a qualified person with a disability in all aspects of the employment relationship, including:

- job application procedures
- hiring or discharge
- compensation
- job training
- advancement

A qualified person with a disability means an otherwise qualified person who can perform the essential functions of the position in question, with or without reasonable accommodation.

Reasonable accommodation is any modification or adjustment to a job or the work environment that will enable a qualified applicant or employee with a disability to perform essential job functions and enjoy the same rights and privileges in employment as non-disabled employees.

The ADA does not require an accommodation that would impose an undue hardship on the University. An undue hardship is an action which requires significant difficulty or expense.

**Student Services**

The following services are available through the **Center for Disabled Student Services:**

- Campus Accessibility
- Resource List for learning disability diagnostic testing
- Liaison services with faculty, staff, and community
- Assistance with obtaining readers, interpreter, scribes and a variety of other services for people with disabilities
- Information about services offered through the Utah State Office of Rehabilitation

**Public Access and Accommodation**

We want your help. The University is committed to a structural modification plan to provide more and better access to campus facilities. Please help us by reporting any accessibility problems you encounter at the University of Utah campuses. You can call
The Center of Disabled Students Services at (801) 581-5020 or via the Internet at: http://disability.utah.edu/.

UNIVERSITY SERVICES
We want to help but we need to know.
Although identifying yourself as a person with a disability is voluntary, the University can only accommodate known disabilities. Declaration of a disability can be made at the time of hire/admission or at any time throughout the individual’s employment/enrollment at the University. Providing this information is strictly voluntary. If you wish to identify yourself as a person with a disability, please contact the appropriate office and/or request an accommodation.

Questions or Complaints….
If you have questions about equal opportunity and/or disability, or if you would like to schedule a training session for your University department or group, please contact the Office of Equal Opportunity and Affirmative Action:  (801) 581-8362 (Voice or TDD).

The Office of Equal Opportunity and Affirmative Action provides confidential consultation. We will act as an advocate for fairness in resolving disputes internally, both on a formal or informal basis. We also provide information on procedures for filing complaints through the University discrimination grievance procedure or external government agencies. If you have reason to believe your rights have been denied or violated, please contact:
