

Summer Conferences 2021 COVID Guidance

- 1.** University policy requires face coverings to be worn in all common areas on campus. For summer guests, this means that face coverings should be worn in indoor areas outside of rooms/apartments. Face coverings are not required outdoors where 6ft physical distance is possible.
- 2.** Summer guests must receive a negative PCR COVID test within 48 hours of arrival. This includes anyone who has been vaccinated. Negative test results must be presented at the time of check-in. Please note, PCR tests are the only acceptable form of test that will be accepted upon check-in.
- 3.** Weekly asymptomatic COVID testing is required for all long-term individuals, including those who have been fully vaccinated. You can schedule an appointment [here](#). Please help us keep our campus community protected.
- 4.** Guests who become ill with symptoms of coronavirus must self-report [here](#). Please fill out the self-report form if you: have COVID-19 symptoms (fever, cough, shortness of breath), or have been in contact with a person who tested positive for COVID-19. You may be asked to quarantine in a summer conference isolation space for the CDC recommended 10 days.

COVID-19 safety restrictions are continually updated to reflect new conditions and this policy is subject to change. Please refer to [Campus COVID-19 Response](#) for the most up to date information.

Questions about this policy can be directed to mhealy@guesthouse.utah.edu
